NOTARY CERTIFICATION

## **Complaint Against Friends of Kaniela Ing September 18, 2012**

### **1) Friends of Kaniela Ing filed its 'Expenditures of Public Funds Report' on September 11, 2012. It was due August 31, 2012.**

According to the 'Notice of Late Reports' announcement posted on the Hawaii Campaign Spending Commission website:

"The fine for not filing the Primary Election Expenditure of Public Funds Report by the due date, if assessed, shall not exceed \$50 per day for the first seven days, beginning with the day after the due date of the report, and shall not exceed \$200 per day thereafter; provided that in aggregate, the fine shall not exceed twenty-five per cent of the total amount expenditures for the period covered by the report; and the minimum fine for a report filed more than four days after the due date, if assessed, shall be \$200."

Friends of Ing was 12 days late. The fine could be \$1350 but is limited by the expenditure of \$2480.10 for the period--25% of which yields a fine of \$620.

### **2) Ing did not report expenses for five Maui News Ads** running August 5, 6, 8, 10, 11, 2012.

Neither the Public Funds Report nor any other report filed by Friends of Kaniela Ing reports any expenditure of funds for campaign advertisements in the Maui News. But five campaign advertisements bearing the "paid for by Friends of Kaniela Ing" notation appeared in the Maui News in August, 2012. According to the Maui News rate card these full color ads (size: 2 columns x 5") could have cost as much as \$1862.50. (rate card and advertisements attached)

As provided under HRS 11-401(a), complainant asks that the Commission require Friends of Kaniela Ing to produce relevant books, papers, documents, or objects to the commission office.

Failure to report these Maui News advertising expenditures is a violation of HRS 11-337 which states that "an expenditure is deemed to be made or incurred when the services are rendered or the product is delivered."

Willful or reckless concealment of campaign expenses triggers the criminal penalties in HRS §11-412:

(a) Any person who recklessly, knowingly, or intentionally violates any provision of this part shall be guilty of a misdemeanor.

(b) Any person who knowingly or intentionally falsifies any report required by this part with the intent to circumvent the law or deceive the commission or who violates section 11-352 or 11-353 shall be guilty of a class C felony. A person charged with a class C felony shall not be eligible for a deferred acceptance of guilty plea or nolo contendere plea under chapter 853.

(c) A person who is convicted under this section shall be disqualified from holding elective public office for a period of four years from the date of conviction.

**3) Ing's public funding expenses exceed the allotted amount.** According to the CSC announcement of Public Funds Disbursed in 2012, Friends of Kaniela Ing received \$1895 for the Primary Election. His 'Expenditures of Public Funds Report' reports \$2480.10 in expenditures. Moreover, Ing's two itemized public funding expenses are identical to expenses reported on earlier reports.

Ing double reports the following two items:

Identical entries for Double Portion Banners, \$1040.61 expended on July 10, 2012 appear on his 'Expenditures of Public Funds Report' and his July 27, 2012 CSC report.

Identical entries for Pacific Radio Group, \$1439.49 expended on July 30, 2012 appear on his 'Expenditures of Public Funds Report' and his August 11, 2012 CSC report.

As provided under HRS 11-401(a), complainant asks that the Commission require Friends of Kaniela Ing to produce relevant books, papers, documents, or objects to the commission office.

Willful or reckless double reporting of expenses triggers the criminal penalties in HRS §11-412.

**4) Friends of Kaniela Ing does not properly report a campaign loan.** On their August 11 CSC report, Friends of Kaniela Ing reports receipt of a loan August 9, 2012 in the amount of \$1895 from Robert Wintner with the itemization "waiting on partial public funding check." Ing reports no repayment of this loan in his 'Expenditures of Public Funds Report'.

As provided by HRS 11-372 (c), the CSC Treasurer's Guidebook explains: "A copy of the executed loan document must be received by the Commission by 4:30 pm of the filing date for the report covering the reporting period when the loan was received.... If a loan is not properly reported or documented, it will be treated as a contribution."

Friends of Kaniela Ing has not provided any executed loan documentation, therefore Mr Wintner's 'loan' should be treated as a contribution.

Additionally, Mr. Wintner on June 28, 2012 contributed \$1000 to Friends of Kaniela Ing, thus the total of all de jure contributions from Mr. Wintner is \$2895. The legal maximum of contributions for a two-year race is \$2000 thus \$895 must be refunded to Mr. Wintner. For accepting the illegal contribution, Friends of Kaniela Ing should be assessed \$1000 in fines in accord with HRS 11-410.

As provided under HRS 11-401(a), complainant asks that the Commission require Friends of Kaniela Ing to produce relevant books, papers, documents, or objects to the commission office.

**Family: Married**

**Most important Issue:** Jobs. Now is the time to encourage job development. Hawaii as a state is listed No. 49 on the business-friendly list. I will work hard and diligently to turn that around. This is not a time to remain stagnant. You need new blood, new ideas in the council and I am that person. We must prepare our youth for a global economy based on knowledge and innovation. Our Maui business climate desires better. We need to encourage re-training and cross-training for diversified jobs creation. Put Maui on the map as a convention destination for international sports, cultural education in living classrooms and showcase how Maui Nui can be a role model for sustainable livelihoods. I will be an active council member, and will put my three decades of small business entrepreneurship to work for you, actively researching solutions and choices we have available. No more of your tax dollars going to public sector bonuses!

Visitor spending accounts for 80 percent of Maui's economy, directly or indirectly creating jobs by feeding thousands of small businesses and providing paychecks for most Maui residents. It is critical that we attract visitors to Maui as well as other initiatives such as alternative energy development and more farming.

Maui nonprofits provide critical services for some of the least advantaged residents of Maui County. Even more of our residents seek assistance from our nonprofits. The services provided by these nonprofits are accomplished at a significantly lower cost than if the county were to directly perform these services but at the same time many of these nonprofits might be providing duplication of services. If so, then combining or umbrella under one roof could be more economical for the county and more efficient for the community. We all have to cut back and make do with less right now and into the future. Our road to recovery is slow going and closer scrutiny will

rebound. As a member both initiated measure Maui County's economic improvement projects, repair and (Waikamoi flume), system, fire stations, Kihei district, road, new water source

Rebels also have managed to keep open supply corridors from the Turkish border, about 25 miles away, which could also be targeted by any government ground offensive.

The government claimed it had regained full authority over Damascus after driving out rebels from central districts including near Abbassiyin Square, a major roundabout. But residents reported loud explosions and gunfire echoing from several areas of the capital overnight and early Sunday.

Khaled al-Shami, an activist in Damascus, dismissed as "nonsense" the official reports that rebels were pushed from Damascus. He said rebels are increasingly using a tactic of quick-hit attacks to frustrate security forces and keep the capital unstable.

Turkey's state-run agency said Syria's first man in space had fled to Turkey and joined opposition forces. The Anadolu agency said Mohammed Ahmed Fays crossed into Turkey after reaching Aleppo.

Anadolu said it was Fays' fourth attempt to defect. The agency gave no other details on his escape and provided no source for the report. Fays, who was born in Aleppo in 1951, was part of a three-man crew of a Soviet space mission in 1967.

...sion, which sits on the border with Iraq. He said the offensive began July 23.

Saban provided few other details on the ongoing operation but said the security forces were trying to block the rebels' es-

...Egypt blamed Islamist militants from Gaza and Egypt's troubled Sinai Peninsula. President Mohammed Morsi said the attackers "will pay dearly."

The Israeli military said the attack was part of a plot to abduct an Israeli soldier, and two vehicles commandeered by the attackers crashed into Israel, where one blew up.

In a statement, Israel's Defense Minister Ehud Barak said Israel's military and the internal security agency "thwarted an attack that could have injured many. The militants' attack methods again raise the need for determined Egyptian action to enforce security and prevent terror in the Sinai."

The attack took place around sunset on the Egyptian border town of Rafah, when the troops were having the traditional meal at the end of the July fast during the Islamic holy month of Ramadan.

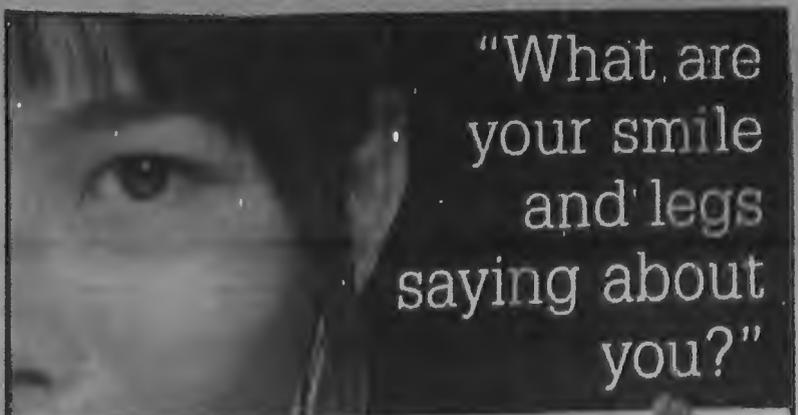

Egyptian state TV said the attack on the checkpoint was carried out by Islamist militants. The report said 16 troops were killed in the attack coordinated between Palestinians who entered Egypt from Gaza and Egyptians in Sinai.

...it took a surprise operation to carry it by Honduras and across the Yucatan Peninsula to the Gulf of Mexico.

Forecasters at Jamaica's Meteorological Service said rain was tapering off but high

...Forecasters said rain could begin increasing the coast of Honduras today. It is then expected to move inland over the Belize-Mexico border Tuesday night and pass south of the Gulf of Mexico.

## Atlantic season may see more storms

MIAMI — The Atlantic hurricane season got off to an early start and will likely stay busy, producing a few more storms than originally predicted, which could come early before tapering off, U.S. forecasters said Thursday.

Forecasters said warmer-than-normal sea surface temperatures and wind patterns that favor storm formation mean chances are higher for an above normal season. However, that is tempered with the expected development of an El Nino weather pattern over the Pacific that may suppress storms later in the season.

The season so far has produced four tropical storms and two hurricanes. Twelve to 17 tropical storms were expected, with as many as five to eight hurricanes, compared to a normal Atlantic season that produces about a dozen named storms, forecasters said. A couple could become major hurricanes with winds of 111 mph or higher.

Last year was one of the busiest seasons on record, with 19 named systems, including Irene, one of the costliest U.S.
